

Measure 4: Ability of completers to be hired in education positions for which they have prepared (Initial & Advanced levels)

Concordia University Chicago's completers have ample employment opportunities in their fields of study across Illinois and beyond. We do retrieve employment data for those who accept employment in public and Lutheran schools. However, it is more difficult to track those who seek employment out of state or outside public or Lutheran school settings. The data indicate the average percentage of program graduates who hold a teaching position in their field of study during 2022 is 71%. This number is comparable to state averages.
