The University reserves the right to determine the number and type of transfer credits accepted toward a student's degree. The last two years of college work should be at the senior college level. No more than 67 semester hours of lower-level transfer credit from a regionally accredited institution will be counted toward graduation, except through an articulation agreement or as for students enrolled in the Accelerated Degree Program for Adults. One-half of all credits toward a major must be completed at Concordia. Courses with a grade of 'F' are not transferable. Transfer credit is not calculated in the student's cumulative grade point average.
