TIPS

- Print Charlie on heavyweight cardstock, laminate him, or attach a popsicle stick for extra sturdiness.
- Natural light and unique backgrounds (landmarks, beautiful scenery) make for better photos.
- Make sure Charlie is in focus so he doesn't get lost in the background of your photo.
- Always be aware of your surroundings when taking photos in busy or unfamiliar places. Safety first!
- Please avoid photos featuring alcohol or inappropriate behavior.

We can't wait to see where Charlie travels!
