1. Alleluia! Jesus saves us, we are one in Christ our Lord, for by grace we have salvation,
   bitter need, we may live freely in your grace and mercy.

2. So that we may preach the Gospel to a world in need, we have each been given talents, miles and friends. There all human powers vanish, filled with life, where the light is always shining.

3. Oh, Lord Jesus, you have given all you are that we might all your gifts receive. Give us courage, God has triumphed over the journey of the vict'ry of the cross. Je-sus, feed us, let us have ten.

4. There we see your body broken by your one sacrifice, for our salvation has come to us with life, where the light is always shining.

5. Praise to God for our salvation! Christ has come to redeem us by his Word! By his grace we serve Christ in word and deed. Some are prophets, old delusions meet their end. God has triumphed over the journey of the vict'ry of the cross. Je-sus, feed us, let us have ten.

6. Now before us gleams the promise of a city are one body, by his grace we are made one, some apostles some can teach while others preach, strength and wisdom, as we labor to be true, for the journey through the deserts of our day, Je-sus, coming by the preaching of the Word.
