September 4, 2020

Dear Students and Colleagues -

Thank you for your help in quickly adopting the use of the new [#CampusClear](#) app. This has already proven an invaluable tool to the University's COVID-19 response operations.

Earlier this week, a major application update took place, which required all users to re-authenticate their [#CampusClear](#) accounts. At the same time CUC has seen a significant decline in daily use of the app. If you have not done so already, we ask that you please complete the app re-authentication by opening the app and entering your university email address as soon as possible. This will enable you to resume your daily check-ins and allow you to receive app reminder notifications. We also encourage use during times when you may not be on campus, so that app use becomes part of your daily routine.

It remains critically important that all on-campus students, faculty and staff continue to complete their daily health assessment through the [#CampusClear](#) app. The system is monitored regularly and assists the University with COVID-19 contact tracing by identifying individuals who have reported exposure to and/or are experiencing symptoms of the virus.

As we approach the holiday weekend, we also strongly encourage all members of the University community to act responsibly as they celebrate the end of summer. Wearing a mask and maintaining six feet of social distance remains the best way to mitigate the spread of COVID-19 both on and off campus. As referenced in the [Cougar Care Commitment](#), we have an obligation to protect our own health and well-being as well as that of others.

We appreciate your continued efforts to ensure a safe campus environment.

Have a safe and enjoyable holiday weekend.

*- Emergency Response Team*
